DEPARTMENT OF CHEMISTRY

Professor Joshua Lederberg
Department of Genetics
The University of Wisconsin
College of Agriculture
Madison 6, Wisconsin

Dear Professor Lederberg:

Our iso-maltose experiments at present are all on a milligram basis. Consequently we regret that we will not be able to furnish you the material for your experiments. It is possible that the Northern Regional Laboratory has some of this material.

Sincerely yours,

A handwritten signature in dark ink, appearing to read 'M. L. Wolfrom', with a long horizontal flourish extending to the right.

M. L. Wolfrom
